

In order to realize the interface function between research and industry, ANAXAM is looking for a:

Project Manager (80-100%)

with the focus on X-ray spectroscopy

About ANAXAM

ANAXAM is a technology transfer center that was founded in 2019 by the Paul Scherrer Institute PSI, the University of Applied Sciences Northwestern Switzerland FHNW, the Swiss Nanoscience Institute SNI and the Canton of Aargau. ANAXAM enables industry to benefit from innovative analytical methods using neutron and synchrotron radiation, based on large-scale research facilities, for the development and optimization of new products or processes.

Your tasks

Where industrial and scientific know-how come together you are responsible for:

- guiding and coordinating cross-method and cross-subject collaboration projects
- design and conduction of experiments at large-scale facilities in close collaboration with the instrument scientists
- responsible for data evaluation and result interpretation
- supporting the development of tailor-made infrastructure for experiments
- acquiring new projects

Your profile

You bring the enthusiasm to work on new topics in a customer-oriented technology transfer environment and you have:

- a PhD degree in the field of materials science, engineering, chemistry, physics or related subject area
- competences using spectroscopy at synchrotron facilities for the characterization of material properties
- experience and/or willingness to work with industrial customers
- proven experience in project management
- fluent in English and understanding German is mandatory

We offer

- Dynamic Work Environment: Be part of a supportive and innovative team working on cutting-edge projects
- Professional Development: Opportunities for continuous learning through training, seminars, and conferences
- Flexible Working Hours: Options for flexible work arrangements and remote work
- Competitive Compensation: A competitive salary package along with bonuses and pension plan
- Modern Infrastructure: State-of-the-art facilities with convenient access to public transportation
- Team Activities: Regular team events, company outings, and social gatherings to foster a collaborative spirit

This is a permanent position.

If you are interested in this challenging and exciting opportunity, please send your application documents to jobs@anaxam.ch by latest 31 August 2024.

For further information, please contact Dr. Christian Grünzweig, at christian.gruenzweig@anaxam.ch.
